I turn “hard to use” into “easy to love”. With 5+ years of experience, I focus on the human side of pixels, building design systems that guide users effortlessly to their goals. My philosophy is that elegance drives impact, a belief backed by a 36% surge in campaign sales. I’m looking for a passionate team where I can turn big ideas into clean, profitable realities.

Experience

Digital Engagement Designer

Officeworks | Dec 2024 – Sep 2025

As a key designer for Officeworks' high-traffic e-commerce platform, I focused on turning user insights into measurable commercial outcomes.

- Drove campaign sales with user-focused seasonal designs.
- Reduced bounce rates via data-driven UI and front-end iterations.
- Advanced conversions by managing high-volume marketing assets.
- Improved development efficiency with pre-dev UI validation workshops.

UX/UI Designer (Freelance)

Various Clients | 2019 – Dec 2024

- Balanced user needs with business goals for diverse clients.
- Lifted campaign sales by 36% by leading seasonal experience design.
- Cut bounce rates by 28% by redesigning key user flows.
- Shaped start-up MVPs by defining user journeys and core features.
- Leveraged A/B testing and user analytics to quickly identify and solve user pain points, leading to decisive design changes that increased conversions.
- Built scalable UI libraries and systems for design consistency.
- Eased developer handoff with a clear document
