Product & Digital Designer with 5 years of experience blending user-centric problem solving with high-impact visual design. I bridge the gap between marketing goals and product utility, having delivered results for both agile startups and established retailers. Expert in balancing brand storytelling with technical constraints to drive conversion, reduce bounce rates, and launch successful MVPs.

Experience

Digital engagement designer (UX/UI)

Officeworks | Dec 2024 – Sep 2025

As a digital engagement designer for Officeworks' high-traffic e-commerce platform, I focused on turning user insights into measurable commercial outcomes.

- **Bridging Marketing & Product:** Collaborated with cross-functional teams to integrate seasonal campaigns into the core e-commerce experience, balancing commercial requirements with user usability.
- **Data-Driven Design:** Utilised user insights and analytics to refine front-end UI, successfully reducing bounce rates and optimizing the customer journey for key sales periods.
- **Stakeholder Alignment:** Engaged business and IT stakeholders to translate marketing objectives into technical design artifacts, ensuring projects met both visual standards and development feasibility.
- **Process Efficiency:** Introduced pre-dev UI validation workshops to catch issues early, streamlining the handover process between design and engineering.

UX/UI Designer (Freelance)

Various Clients | Sep 2019 – Dec 2024

Directed full-cycle design projects for diverse clients, moving from MVP definition to polished UI delivery. Combined creative visual strategy with rigorous performance testing to consistently improve conversion rates and user retention.

- **MVP Strategy:** Partnered with startup founders to define product requirements, creating user journeys and core features that turned concepts into launch-ready products.
- **Commercial Impact:** Led design overhauls for retail clients that directly impacted the bottom line, including a **36% lift in seasonal campaign sales**.
- **Conversion Optimization:** Diagnosed and fixed friction points in user flows, achieving a **28% reduction in bounce rates** through targeted UI improvements.
- **Scalable Systems:** Established design systems and clear documentation for diverse clients, ensuring visual consistency and smoother developer handoffs.

- **A/B Testing:** Leveraged testing and analytics to validate design choices, moving clients from opinion-based decisions to data-backed results.

Art Curator

Dabster Art Lounge | Jun 2018 – Sep 2019

As the strategic lead for the Dabster Art Lounge, I focused on curating immersive client experiences and defining operational frameworks to drive business growth.

- Engagement of artists and private clients to build relationships and generate desired commercial outcomes.
- Developed comprehensive governance policies and curatorial standards to address business objectives and streamline operations.
- Imparted a cohesive creative vision to align aesthetic direction with strategic business goals.
- Steered the business direction by setting and monitoring key performance targets for gallery growth.

Education

Institute of Modern Art
Bachelor of Arts | June 2007

Animation Lyceum
Advanced Diploma of Arts | June 2002

Technical Toolkit

- Primary Design Tool: Figma
- Supporting Tools: Adobe Creative Suite (XD, Photoshop, Illustrator)
- Analytics & Research: Hotjar, Adobe Analytics, Google Lighthouse, SEMrush
- Project Management: Jira, Confluence, Monday
- Front-End Familiarity: HTML, CSS, various CMS (Shopify, Webflow, Contentful)
